

A.G. Wassenaar

LABORATORY SERVICES | Inc.

At A. G. Wassenaar, Inc. we perform the tests our industry demands on a daily basis. We have on-site testing facilities that allow us the flexibility and resourcefulness to meet Client needs. We employ a staff of full-time lab technicians along with a lab manager. Our laboratories are divided into four separate, but cooperative departments. Each department has a lead technician who is certified in their area of testing. Our lab manager is knowledgeable in all areas of testing, and also holds multiple certifications. A. G. Wassenaar, Inc. also has a mobile laboratory that we can set up on-site, in order to meet our Client's needs.

Asphalt

Soils

Concrete, Masonry and Grout

Aggregates

CERTIFICATION:

Our laboratories have maintained AMRL and CCRL accreditation in the areas of Hot Bituminous Asphalt Pavement, Aggregate, Soil and Portland Cement Concrete. We also are currently accredited by the Army Corps of Engineers in the same areas. A full list of our accredited testing can be supplied upon request or visited at our web-site www.agwassenaar.com, or at www.amrl.net.
